Subject: Acknowledgement of Acceptance in WHO Index Medicus for the Eastern Mediterranean Region (IMEMR)

Dear Dr Farhadifar,

We are pleased to inform you that the “**Chronic Disease Journal**” has been selected to be one of the sources of input of the Index Medicus for the Eastern Mediterranean Region (**IMEMR**).

I would like to take this opportunity to introduce the WHO Index Medicus for the Eastern Mediterranean Region (IMEMR). It was launched in 1987 by the Regional Office. All articles published in regional health science journals since 1970 were indexed retrospectively. Currently, the Index includes more than 200, 000 bibliographic citations from more than 700 health and biomedical peer-reviewed journals published in 20 countries of the Eastern Mediterranean Region: *Afghanistan, Bahrain, Egypt, Iraq, Islamic Republic of Iran, Jordan, Kuwait, Lebanon, Libya, Morocco, Oman, Pakistan, occupied Palestinian territory, Qatar, Saudi Arabia, Sudan, Syrian Arab Republic, Tunisia, United Arab Emirates and Yemen.*

Meanwhile we would appreciate receiving the electronic files of the articles on CD/DVD, printed copies as well, if available, of all future and back issues to ensure its complete indexing in the IMEMR.

On the other hand, kindly be informed that the complete database of the IMEMR is available on the Internet and updated regularly at the following URL <http://www.emro.who.int/information-resources/publications/>. However the IMEMR Journal directory is also available at: <http://www.emro.who.int/e-library/imemr/imemr.html>

For further technical details and information, please do not hesitate to contact us at the following e-mail address: emrgoimemr@who.int.

Looking forward to our continued and fruitful co-operation.

Best regards

Hatem Nour El-Din H. Mohamed
